Impact of science on society, 1978
Subject index

Access to information
Who will lead the way to the information society? Engberg, Ole. (XXVIII, 3) p. 283-296.

Africa
Poor nations need to bargain for a better deal in development. Forje, John W. (XXVIII, 2) p. 193-197.

Agricultural innovation
Integrated microbial technology for developing countries: springboard for economic progress. DaSilva, Edgar J. Olembo, Reuben. Burgers, Anton C.J. (XXVIII, 2) p. 159-182, illus.

Algeria
Knowledge transfer in electronics: a North African case. Benazzouz, Abderrahmane. Baez, Albert V. (XXVIII, 4) p. 329-334.

Arid zone
Using solar energy to desalinate water. Tabor, Harry Zvi. (XXVIII, 4) p. 339-348.

Artificial intelligence
Knowledge structures for understanding natural language with the computer. Wilks, Yorick. (XXVIII, 1) p. 67-74.
Modelling the human mind. Amossov, Nikolai M. (XXVIII, 1) p. 75-85.

Behavioural sciences
Research in schizophrenia: regulation of dopamine in the mesolimbic system. Stevens, Janice R. (XXVIII, 1) p. 39-56, illus.
The Role of the placebo in therapeutics. Rasková, Helena. Elis, Jiři. (XXVIII, 1) p. 57-65.

Bilateral agreement
Knowledge transfer in electronics: a North African case. Benazzouz, Abderrahmane. Baez, Albert V. (XXVIII, 4) p. 329-334.

Brain research
Brain, memory and learning: comment. (XXVIII, 1) p. 3-9.
Heredity and environment as formative factors in brain development. Biesold, Dietmar. Bigl, Volker. (XXVIII, 1) p. 11-25, illus.
Modelling the human mind. Amossov, Nikolai M. (XXVIII, 1) p. 75-85.
Research in schizophrenia: regulation of dopamine in the mesolimbic system. Stevens, Janice R. (XXVIII, 1) p. 39-56, illus.
Wakefulness, sleep, and the brain: a cyclical relationship with society. Matsumoto, Junji. (XXVIII, 1) p. 27-37.

Communication development
Technology and development: the historical experience. Macioti, Manfredo. (XXVIII, 4) p. 313-319.

Community participation
The Effects of computerization on the relationship between public administration and the community. Gallouedec-Genuys, Françoise. (XXVIII, 3) p. 219-225.

Computer
Management information systems and the transnational enterprise. Lopes Cardozo, Max. (XXVIII, 3) p. 257-267, illus.
A Participative approach to the design of computer systems. Mumford, Enid. Land, Frank. Hawgood, John. (XXVIII, 3) p. 235-253, illus.

Computer applications
Computers and social options: comment. Salzmann, Charles. (XXVIII, 3) p. 209-218, illus.
The Effects of computerization on the relationship between public administration and the community. Gallouedec-Genuys, Françoise. (XXVIII, 3) p. 219-225.
Knowledge structures for understanding natural language with the computer. Wilks, Yorick. (XXVIII, 1) p. 67-74.

Computer hardware
Computers and social options: comment. Salzmann, Charles. (XXVIII, 3) p. 209-218, illus.

Computer science
Computers and social options: comment. Salzmann, Charles. (XXVIII, 3) p. 209-218, illus.
The Effects of computerization on the relationship between public administration and the community. Gallouedec-Genuys, Françoise. (XXVIII, 3) p. 219-225.
An Introduction to informatics. Kalman, Robert E. (XXVIII, 3) p. 227-232, illus.
Who will lead the way to the information society? Engberg, Ole. (XXVIII, 3) p. 283-296.

Computer science education
Computer science, computers and education. Sendov, Blagovest. (XXVIII, 3) p. 269-274.
The Teaching of informatics: a few questions. Berleur, Jacques. (XXVIII, 3) p. 275-281.

Cost-benefit analysis
A Participative approach to the design of computer systems. Mumford, Enid. Land, Frank. Hawgood, John. (XXVIII, 3) p. 235-253, illus.

Curriculum planning
Knowledge transfer in electronics: a North African case. Benazzouz, Abderrahmane. Baez, Albert V. (XXVIII, 4) p. 329-334.
University-based science and technology for

development: new patterns of international aid. Rao, K. Nagaraja. (XXVIII, 2) p. 117-125.

Cybernetic model
Interdiscipline: search and discovery – systematization, application and transfer. Zago, María Bonomo de. (XXVIII, 2) p. 127-137.
Modelling the human mind. Amossov, Nikolai M. (XXVIII, 1) p. 75-85.

Cybernetics
Computer science, computers and education. Sendov, Blagovest. (XXVIII, 3) p. 269-274.

Data processing
An Introduction to informatics. Kalman, Robert E. (XXVIII, 3) p. 227-232, illus.

Desalinization
Using solar energy to desalinate water. Tabor, Harry Zvi. (XXVIII, 4) p. 339-348.

Developed countries
Technology and development: the historical experience. Macioti, Manfredo. (XXVIII, 4) p. 313-319.

Developing countries
Computers and social options: comment. Salzmann, Charles. (XXVIII, 3) p. 209-218, illus.
An Integrated approach to technology transfer: Soviet cooperation with developing countries. Zevine, Leon Zalmanovich. (XXVIII, 2) p. 183-192.
Integrated microbial technology for developing countries: springboard for economic progress. DaSilva, Edgar J. Olembo, Reuben. Burgers, Anton C.J. (XXVIII, 2) p. 159-182, illus.
Integrated technology transfer – 1: comment. Bhaneja, Balwant. Walker, J.S. (XXVIII, 2) p. 95-104.
Integrated technology transfer – 2: comment. Patel, Surendra J. (XXVIII, 4) p. 303-311.
Integrating assessment in national technological policy. Eto, Hajime. Ishida, Ryujiro. (XXVIII, 2) p. 139-146.
Local innovation: a neglected source of economic self-sufficiency. Clayson, James E. (XXVIII, 4) p. 349-358.
The New economic order and problems of development. Costa, João Frank da. (XXVIII, 4) p. 335-337.
Poor nations need to bargain for a better deal in development. Forje, John W. (XXVIII, 2) p. 193-197.
Research coordination and funding agencies in developing countries. Desa, Valentine G. (XXVIII, 2) p. 105-116.
University-based science and technology for development: new patterns of international aid. Rao, K. Nagaraja. (XXVIII, 2) p. 117-125.
Using solar energy to desalinate water. Tabor, Harry Zvi. (XXVIII, 4) p. 339-348.

Development strategy
Integrated technology transfer – 2: comment. Patel, Surendra J. (XXVIII, 4) p. 303-311.

Distillation
Using solar energy to desalinate water. Tabor, Harry Zvi. (XXVIII, 4) p. 339-348.

Dream
Wakefulness, sleep, and the brain: a cyclical relationship with society. Matsumoto, Junji. (XXVIII, 1) p. 27-37.

Economic equilibrium
The New economic order and problems of development. Costa, João Frank da. (XXVIII, 4) p. 335-337.

Economic growth
Integrated technology transfer – 2: comment. Patel, Surendra J. (XXVIII, 4) p. 303-311.
Local innovation: a neglected source of economic self-sufficiency. Clayson, James E. (XXVIII, 4) p. 349-358.

Economic history
Technology and development: the historical experience. Macioti, Manfredo. (XXVIII, 4) p. 313-319.

Educational innovation
Interdiscipline: search and discovery – systematization, application and transfer. Zago, María Bonomo de. (XXVIII, 2) p. 127-137.
University-based science and technology for development: new patterns of international aid. Rao, K. Nagaraja. (XXVIII, 2) p. 117-125.

Educational personnel training
Interdiscipline: search and discovery – systematization, application and transfer. Zago, María Bonomo de. (XXVIII, 2) p. 127-137.

Educational planning
University-based science and technology for development: new patterns of international aid. Rao, K. Nagaraja. (XXVIII, 2) p. 117-125.

Educational technology
University-based science and technology for development: new patterns of international aid. Rao, K. Nagaraja. (XXVIII, 2) p. 117-125.

Electronics
Knowledge transfer in electronics: a North African case. Benazzouz, Abderrahmane. Baez, Albert V. (XXVIII, 4) p. 329-334.

Employment
Who will lead the way to the information society? Engberg, Ole. (XXVIII, 3) p. 283-296.

Energy conservation
Energy conservation – the global imperative. Murthy, Keshaviah Krishna. (XXVIII, 2) p. 147-158.

Energy dissipation
Energy conservation – the global imperative. Murthy, Keshaviah Krishna. (XXVIII, 2) p. 147-158.

Energy resources
Energy conservation – the global imperative. Murthy, Keshaviah Krishna. (XXVIII, 2) p. 147-158.

Engineering education
Knowledge transfer in electronics: a North African case. Benazzouz, Abderrahmane. Baez, Albert V. (XXVIII, 4) p. 329-334.

Entrepreneur
Local innovation: a neglected source of

economic self-sufficiency. Clayson, James E. (XXVIII, 4) p. 349-358.

Environment

Heredity and environment as formative factors in brain development. Biesold, Dietmar. Bigl, Volker. (XXVIII, 1) p. 11-25, illus.

Fermentation

Integrated microbial technology for developing countries: springboard for economic progress. DaSilva, Edgar J. Olembo, Reuben. Burgers, Anton C.J. (XXVIII, 2) p. 159-182, illus.

Food production

Integrated microbial technology for developing countries: springboard for economic progress. DaSilva, Edgar J. Olembo, Reuben. Burgers, Anton C.J. (XXVIII, 2) p. 159-182, illus.

Food technology

Integrated microbial technology for developing countries: springboard for economic progress. DaSilva, Edgar J. Olembo, Reuben. Burgers, Anton C.J. (XXVIII, 2) p. 159-182, illus.

Freedom of information

Who will lead the way to the information society? Engberg, Ole. (XXVIII, 3) p. 283-296.

Group communication

Interdiscipline: search and discovery – systematization, application and transfer. Zago, María Bonomo de. (XXVIII, 2) p. 127-137.

Heredity

Heredity and environment as formative factors in brain development. Biesold, Dietmar. Bigl, Volker. (XXVIII, 1) p. 11-25, illus.

Higher education

University-based science and technology for development: new patterns of international aid. Rao, K. Nagaraja. (XXVIII, 2) p. 117-125.

Higher technical education

Knowledge transfer in electronics: a North African case. Benazzouz, Abderrahmane. Baez, Albert V. (XXVIII, 4) p. 329-334.

Industrial revolution

Technology and development: the historical experience. Macioti, Manfredo. (XXVIII, 4) p. 313-319.

Industrialization

Technology and development: the historical experience. Macioti, Manfredo. (XXVIII, 4) p. 313-319.

Informatics

Computer science, computers and education. Sendov, Blagovest. (XXVIII, 3) p. 269-274.

Computers and social options: comment. Salzmann, Charles. (XXVIII, 3) p. 209-218, illus.

The Effects of computerization on the relationship between public administration and the community. Gallouedec-Genuys, Françoise. (XXVIII, 3) p. 219-225.

An Introduction to informatics. Kalman, Robert E. (XXVIII, 3) p. 227-232, illus.

Management information systems and the transnational enterprise. Lopes Cardozo, Max. (XXVIII, 3) p. 257-267, illus.

The Teaching of informatics: a few questions. Berleur, Jacques. (XXVIII, 3) p. 275-281.

Who will lead the way to the information society? Engberg, Ole. (XXVIII, 3) p. 283-296.

Information network

An On-line information network for a national and university library. Bonacic, Vladimir. (XXVIII, 3) p. 233-234.

Information processing

Management information systems and the transnational enterprise. Lopes Cardozo, Max. (XXVIII, 3) p. 257-267, illus.

Information processing automation

Who will lead the way to the information society? Engberg, Ole. (XXVIII, 3) p. 283-296.

Information retrieval

Management information systems and the transnational enterprise. Lopes Cardozo, Max. (XXVIII, 3) p. 257-267, illus.

Information system

An Introduction to informatics. Kalman, Robert E. (XXVIII, 3) p. 227-232, illus.

A Participative approach to the design of computer systems. Mumford, Enid. Land, Frank. Hawgood, John. (XXVIII, 3) p. 235-253, illus.

Innovation

Local innovation: a neglected source of economic self-sufficiency. Clayson, James E. (XXVIII, 4) p. 349-358.

Interdisciplinary research

Interdiscipline: search and discovery – systematization, application and transfer. Zago, María Bonomo de. (XXVIII, 2) p. 127-137.

International assistance

University-based science and technology for development: new patterns of international aid. Rao, K. Nagaraja. (XXVIII, 2) p. 117-125.

International economic relations

An Integrated approach to technology transfer: Soviet cooperation with developing countries. Zevine, Leon Zalmanovich. (XXVIII, 2) p. 183-192.

The New economic order and problems of development. Costa, João Frank da. (XXVIII, 4) p. 335-337.

Interpersonal communication

Interdiscipline: search and discovery – systematization, application and transfer. Zago, María Bonomo de. (XXVIII, 2) p. 127-137.

Japan

Integrating assessment in national technological policy. Eto, Hajime. Ishida, Ryujiro. (XXVIII, 2) p. 139-146.

Technology and development: the historical experience. Macioti, Manfredo. (XXVIII, 4) p. 313-319.

Job satisfaction

A Participative approach to the design of computer systems. Mumford, Enid. Land, Frank. Hawgood, John. (XXVIII, 3) p. 235-253, illus.

Kenya

Local innovation: a neglected source of economic self-sufficiency. Clayson, James E. (XXVIII, 4) p. 349-358.

Learning process
Brain, memory and learning: comment. (XXVIII, 1) p. 3-9.
Least developed countries
University-based science and technology for development: new patterns of international aid. Rao, K. Nagaraja. (XXVIII, 2) p. 117-125.
Library service
Who will lead the way to the information society? Engberg, Ole. (XXVIII, 3) p. 283-296.
Linguistics
Computer science, computers and education. Sendov, Blagovest. (XXVIII, 3) p. 269-274.
Knowledge structures for understanding natural language with the computer. Wilks, Yorick. (XXVIII, 1) p. 67-74.
Machine tool
Local innovation: a neglected source of economic self-sufficiency. Clayson, James E. (XXVIII, 4) p. 349-358.
Management information system
An Introduction to informatics. Kalman, Robert E. (XXVIII, 3) p. 227-232, illus.
Management information systems and the transnational enterprise. Lopes Cardozo, Max. (XXVIII, 3) p. 257-267, illus.
Management operations
The Effects of computerization on the relationship between public administration and the community. Gallouedec-Genuys, Françoise. (XXVIII, 3) p. 219-225.
A Participative approach to the design of computer systems. Mumford, Enid. Land, Frank. Hawgood, John. (XXVIII, 3) p. 235-253, illus.
Management technique
The Management of technology transfer: can it be learned? Bettignies, Henri Claude de. (XXVIII, 4) p. 321-327.
Mathematics education
Computer science, computers and education. Sendov, Blagovest. (XXVIII, 3) p. 269-274.
Medical research
The Role of the placebo in therapeutics. Rasková, Helena. Elis, Jiři. (XXVIII, 1) p. 57-65.
Memory
Brain, memory and learning: comment. (XXVIII, 1) p. 3-9.
Mental disease
Research in schizophrenia: regulation of dopamine in the mesolimbic system. Stevens, Janice R. (XXVIII, 1) p. 39-56, illus.
Methodology
Using solar energy to desalinate water. Tabor, Harry Zvi. (XXVIII, 4) p. 339-348.
Microbiological resources
Integrated microbial technology for developing countries: springboard for economic progress. DaSilva, Edgar J. Olembo, Reuben. Burgers, Anton C.J. (XXVIII, 2) p. 159-182, illus.
Microbiology
Integrated microbial technology for developing countries: springboard for economic progress. DaSilva, Edgar J. Olembo, Reuben. Burgers, Anton C.J. (XXVIII, 2) p. 159-182, illus.
Mind
Modelling the human mind. Amossov, Nikolai M. (XXVIII, 1) p. 75-85.
National development
Poor nations need to bargain for a better deal in development. Forje, John W. (XXVIII, 2) p. 193-197.
National library
An On-line information network for a national and university library. Bonacic, Vladimir. (XXVIII, 3) p. 233-234.
Natural language processing
Knowledge structures for understanding natural language with the computer. Wilks, Yorick. (XXVIII, 1) p. 67-74.
Nervous system
Heredity and environment as formative factors in brain development. Biesold, Dietmar. Bigl, Volker. (XXVIII, 1) p. 11-25, illus.
Neurology
Research in schizophrenia: regulation of dopamine in the mesolimbic system. Stevens, Janice R. (XXVIII, 1) p. 39-56, illus.
New International Economic Order
The New economic order and problems of development. Costa, João Frank da. (XXVIII, 4) p. 335-337.
Nutrition
Brain, memory and learning: comment. (XXVIII, 1) p. 3-9.
On-line information system
An On-line information network for a national and university library. Bonacic, Vladimir. (XXVIII, 3) p. 233-234.
On-the-job training
An Integrated approach to technology transfer: Soviet cooperation with developing countries. Zevine, Leon Zalmanovich. (XXVIII, 2) p. 183-192.
Pharmacology
The Role of the placebo in therapeutics. Rasková, Helena. Elis, Jiři. (XXVIII, 1) p. 57-65.
Political science
Science and depoliticization. Jackson, Michael W. (XXVIII, 4) p. 359-367.
Politics
Science and depoliticization. Jackson, Michael W. (XXVIII, 4) p. 359-367.
Public administration
The Effects of computerization on the relationship between public administration and the community. Gallouedec-Genuys, Françoise. (XXVIII, 3) p. 219-225.
Research and development
Integrated technology transfer – 1: comment. Bhaneja, Balwant. Walker, J.S. (XXVIII, 2) p. 95-104.
Research coordination and funding agencies in developing countries. Desa, Valentine G. (XXVIII, 2) p. 105-116.
Research centre
Research coordination and funding agencies in developing countries. Desa, Valentine G. (XXVIII, 2) p. 105-116.
Research coordination
Research coordination and funding agencies in

developing countries. Desa, Valentine G. (XXVIII, 2) p. 105-116.

Research management
Research coordination and funding agencies in developing countries. Desa, Valentine G. (XXVIII, 2) p. 105-116.

Research priorities
Research coordination and funding agencies in developing countries. Desa, Valentine G. (XXVIII, 2) p. 105-116.

Schizophrenia
Research in schizophrenia: regulation of dopamine in the mesolimbic system. Stevens, Janice R. (XXVIII, 1) p. 39-56, illus.

Science and development
Integrated technology transfer – 1: comment. Bhaneja, Balwant. Walker, J.S. (XXVIII, 2) p. 95-104.
Integrated technology transfer – 2: comment. Patel, Surendra J. (XXVIII, 4) p. 303-311.
The New economic order and problems of development. Costa, João Frank da. (XXVIII, 4) p. 335-337.
Science and depoliticization. Jackson, Michael W. (XXVIII, 4) p. 359-367.
University-based science and technology for development: new patterns of international aid. Rao, K. Nagaraja. (XXVIII, 2) p. 117-125.

Science education
University-based science and technology for development: new patterns of international aid. Rao, K. Nagaraja. (XXVIII, 2) p. 117-125.

Science policy
Integrating assessment in national technological policy. Eto, Hajime. Ishida, Ryujiro. (XXVIII, 2) p. 139-146.
Research coordination and funding agencies in developing countries. Desa, Valentine G. (XXVIII, 2) p. 105-116.

Scientific cooperation
An Integrated approach to technology transfer: Soviet cooperation with developing countries. Zevine, Leon Zalmanovich. (XXVIII, 2) p. 183-192.
Integrated technology transfer – 1: comment. Bhaneja, Balwant. Walker, J.S. (XXVIII, 2) p. 95-104.
The New economic order and problems of development. Costa, João Frank da. (XXVIII, 4) p. 335-337.

Scientific development
Poor nations need to bargain for a better deal in development. Forje, John W. (XXVIII, 2) p. 193-197.

Scientific personnel training
An Integrated approach to technology transfer: Soviet cooperation with developing countries. Zevine, Leon Zalmanovich. (XXVIII, 2) p. 183-192.

Scientific research
Integrated microbial technology for developing countries: springboard for economic progress. DaSilva, Edgar J. Olembo, Reuben. Burgers, Anton C.J. (XXVIII, 2) p. 159-182, illus.
Integrated technology transfer – 1: comment. Bhaneja, Balwant. Walker, J.S. (XXVIII, 2) p. 95-104.
Research coordination and funding agencies in developing countries. Desa, Valentine G. (XXVIII, 2) p. 105-116.

Seminar
The Management of technology transfer: can it be learned? Bettignies, Henri Claude de. (XXVIII, 4) p. 321-327.

Sensory system
Modelling the human mind. Amossov, Nikolai M. (XXVIII, 1) p. 75-85.

Sight
Research in schizophrenia: regulation of dopamine in the mesolimbic system. Stevens, Janice R. (XXVIII, 1) p. 39-56, illus.

Sleep
Wakefulness, sleep, and the brain: a cyclical relationship with society. Matsumoto, Junji. (XXVIII, 1) p. 27-37.

Social environment
Wakefulness, sleep, and the brain: a cyclical relationship with society. Matsumoto, Junji. (XXVIII, 1) p. 27-37.

Social factors
Knowledge transfer in electronics: a North African case. Benazzouz, Abderrahmane. Baez, Albert V. (XXVIII, 4) p. 329-334.
The Teaching of informatics: a few questions. Berleur, Jacques. (XXVIII, 3) p. 275-281.

Socio-economic factors
Technology and development: the historical experience. Macioti, Manfredo. (XXVIII, 4) p. 313-319.

Solar radiation
Using solar energy to desalinate water. Tabor, Harry Zvi. (XXVIII, 4) p. 339-348.

South East Asia
The Management of technology transfer: can it be learned? Bettignies, Henri Claude de. (XXVIII, 4) p. 321-327.

Statistical data
Energy conservation – the global imperative. Murthy, Keshaviah Krishna. (XXVIII, 2) p. 147-158.
Integrated microbial technology for developing countries: springboard for economic progress. DaSilva, Edgar J. Olembo, Reuben. Burgers, Anton C.J. (XXVIII, 2) p. 159-182, illus.

Structure of knowledge
Knowledge structures for understanding natural language with the computer. Wilks, Yorick. (XXVIII, 1) p. 67-74.

Systems analysis
A Participative approach to the design of computer systems. Mumford, Enid. Land, Frank. Hawgood, John. (XXVIII, 3) p. 235-253, illus.

Teaching method
Interdiscipline: search and discovery – systematization, application and transfer. Zago, María Bonomo de. (XXVIII, 2) p. 127-137.

Technical assistance
Integrated technology transfer – 1: comment. Bhaneja, Balwant. Walker, J.S. (XXVIII, 2) p. 95-104.

Technocracy
Science and depoliticization. Jackson, Michael W. (XXVIII, 4) p. 359-367.
Technological forecasting
Integrating assessment in national technological policy. Eto, Hajime. Ishida, Ryujiro. (XXVIII, 2) p. 139-146.
Technological gap
Integrated technology transfer – 2: comment. Patel, Surendra J. (XXVIII, 4) p. 303-311.
Poor nations need to bargain for a better deal in development. Forje, John W. (XXVIII, 2) p. 193-197.
Technological innovation
Integrated microbial technology for developing countries: springboard for economic progress. DaSilva, Edgar J. Olembo, Reuben. Burgers, Anton C.J. (XXVIII, 2) p. 159-182, illus.
Local innovation: a neglected source of economic self-sufficiency. Clayson, James E. (XXVIII, 4) p. 349-358.
Technological institute
Knowledge transfer in electronics: a North African case. Benazzouz, Abderrahmane. Baez, Albert V. (XXVIII, 4) p. 329-334.
Technology assessment
Integrating assessment in national technological policy. Eto, Hajime. Ishida, Ryujiro. (XXVIII, 2) p. 139-146.
Telecommunication
Computers and social options: comment. Salzmann, Charles. (XXVIII, 3) p. 209-218, illus.
Therapy
The Role of the placebo in therapeutics. Rasková, Helena. Elis, Jiři. (XXVIII, 1) p. 57-65.
Transfer of technology
Energy conservation – the global imperative. Murthy, Keshavish Krishna. (XXVIII, 2) p. 147-158.
An Integrated approach to technology transfer: Soviet cooperation with developing countries. Zevine, Leon Zalmanovich. (XXVIII, 2) p. 183-192.
Integrated technology transfer – 1: comment. Bhaneja, Balwant. Walker, J.S. (XXVIII, 2) p. 95-104.
Integrated technology transfer – 2: comment. Patel, Surendra J. (XXVIII, 4) p. 303-311.
Integrating assessment in national technological policy. Eto, Hajime. Ishida, Ryujiro. (XXVIII, 2) p. 139-146.
Knowledge transfer in electronics: a North African case. Benazzouz, Abderrahmane. Baez, Albert V. (XXVIII, 4) p. 329-334.
The Management of technology transfer: can it be learned? Bettignies, Henri Claude de. (XXVIII, 4) p. 321-327.
Research coordination and funding agencies in developing countries. Desa, Valentine G. (XXVIII, 2) p. 105-116.
Science and depoliticization. Jackson, Michael W. (XXVIII, 4) p. 359-367.
Technology and development: the historical experience. Macioti, Manfredo. (XXVIII, 4) p. 313-319.
Transnational enterprise
Integrated technology transfer – 2: comment. Patel, Surendra J. (XXVIII, 4) p. 303-311.
Management information systems and the transnational enterprise. Lopes Cardozo, Max. (XXVIII, 3) p. 257-267, illus.
Understanding
Knowledge structures for understanding natural language with the computer. Wilks, Yorick. (XXVIII, 1) p. 67-74.
University
University-based science and technology for development: new patterns of international aid. Rao, K. Nagaraja. (XXVIII, 2) p. 117-125.
University curriculum
The Teaching of informatics: a few questions. Berleur, Jacques. (XXVIII, 3) p. 275-281.
University libraries
An On-line information network for a national and university library. Bonacic, Vladimir. (XXVIII, 3) p. 233-234.
USA
Knowledge transfer in electronics: a North African case. Benazzouz, Abderrahmane. Baez, Albert V. (XXVIII, 4) p. 329-334.
USSR
An Integrated approach to technology transfer: Soviet cooperation with developing countries. Zevine, Leon Zalmanovich. (XXVIII, 2) p. 183-192.
Variance analysis
A Participative approach to the design of computer systems. Mumford, Enid. Land, Frank. Hawgood, John. (XXVIII, 3) p. 235-253, illus.
Visual learning
Heredity and environment as formative factors in brain development. Biesold, Dietmar. Bigl, Volker. (XXVIII, 1) p. 11-25, illus.
Yugoslavia
An On-line information network for a national and university library. Bonacic, Vladimir. (XXVIII, 3) p. 233-234.

Impact of science on society, 1978
Author index

Amossov, Nikolai M.
Modelling the human mind. (XXVIII, 1) p. 75-85.

Baez, Albert V.
Knowledge transfer in electronics: a North African case. (XXVIII, 4) p. 329-334.

Benazzouz, Abderrahmane
Knowledge transfer in electronics: a North African case. (XXVIII, 4) p. 329-334.

Berleur, Jacques
The Teaching of informatics: a few questions. (XXVIII, 3) p. 275-281.

Bettignies, Henri Claude de
The Management of technology transfer: can it be learned? (XXVIII, 4) p. 321-327.

Bhaneja, Balwant
Integrated technology transfer – 1: comment. (XXVIII, 2) p. 95-104.

Biesold, Dietmar
Heredity and environment as formative factors in brain development. (XXVIII, 1) p. 11-25, illus.

Bigl, Volker
Heredity and environment as formative factors in brain development. (XXVIII, 1) p. 11-25, illus.

Bonacic, Vladimir
An On-line information network for a national and university library. (XXVIII, 3) p. 233-234.

Burgers, Anton C.J.
Integrated microbial technology for developing countries: springboard for economic progress. (XXVIII, 2) p. 159-182, illus.

Clayson, James E.
Local innovation: a neglected source of economic self-sufficiency. (XXVIII, 4) p. 349-358.

Costa, João Frank da
The New economic order and problems of development. (XXVIII, 4) p. 335-337.

DaSilva, Edgar J.
Integrated microbial technology for developing countries: springboard for economic progress. (XXVIII, 2) p. 159-182, illus.

Desa, Valentine G.
Research coordination and funding agencies in developing countries. (XXVIII, 2) p. 105-116.

Elis, Jiří
The Role of the placebo in therapeutics. (XXVIII, 1) p. 57-65.

Engberg, Ole
Who will lead the way to the information society? (XXVIII, 3) p. 283-296.

Eto, Hajime
Integrating assessment in national technological policy. (XXVIII, 2) p. 139-146.

Forje, John W.
Poor nations need to bargain for a better deal in development. (XXVIII, 2) p. 193-197.

Gallouedec-Genuys, Françoise
The Effects of computerization on the relationship between public administration and the community. (XXVIII, 3) p. 219-225.

Hawgood, John
A Participative approach to the design of computer systems. (XXVIII, 3) p. 235-253, illus.

Ishida, Ryujiro
Integrating assessment in national technological policy. (XXVIII, 2) p. 139-146.

Jackson, Michael W.
Science and depoliticization. (XXVIII, 4) p. 359-367.

Kalman, Robert E.
An Introduction to informatics. (XXVIII, 3) p. 227-232, illus.

Land, Frank
A Participative approach to the design of computer systems. (XXVIII, 3) p. 235-253, illus.

Lopes Cardozo, Max
Management information systems and the transnational enterprise. (XXVIII, 3) p. 257-267, illus.

Macioti, Manfredo
Technology and development: the historical experience. (XXVIII, 4) p. 313-319.

Matsumoto, Junji
Wakefulness, sleep, and the brain: a cyclical relationship with society. (XXVIII, 1) p. 27-37.

Mumford, Enid
A Participative approach to the design of computer systems. (XXVIII, 3) p. 235-253, illus.

Murthy, Keshaviah Krishna
Energy conservation – the global imperative. (XXVIII, 2) p. 147-158.

Olembo, Reuben
Integrated microbial technology for developing countries: springboard for economic progress. (XXVIII, 2) p. 159-182, illus.

Patel, Surendra J.
Integrated technology transfer – 2: comment. (XXVIII, 4) p. 303-311.

Rao, K. Nagaraja
University-based science and technology for development: new patterns of international aid. (XXVIII, 2) p. 117-125.

Rasková, Helena
The Role of the placebo in therapeutics. (XXVIII, 1) p. 57-65.
Salzmann, Charles
Computers and social options: comment. (XXVIII, 3) p. 209-218, illus.
Sendov, Blagovest
Computer science, computers and education. (XXVIII, 3) p. 269-274.
Stevens, Janice R.
Research in schizophrenia: regulation of dopamine in the mesolimbic system. (XXVIII, 1) p. 39-56, illus.
Tabor, Harry Zvi
Using solar energy to desalinate water. (XXVIII, 4) p. 339-348.
Walker, J.S.
Integrated technology transfer – 1: comment. (XXVIII, 2) p. 95-104.
Wilks, Yorick
Knowledge structures for understanding natural language with the computer. (XXVIII, 1) p. 67-74.
Zago, María Bonomo de
Interdiscipline: search and discovery – systematization, application and transfer. (XXVIII, 2) p. 127-137.
Zevine, Leon Zalmanovich
An Integrated approach to technology transfer: Soviet cooperation with developing countries. (XXVIII, 2) p. 183-192.

Impact of science on society, 1978
Title index

Brain, memory and learning: comment
(XXVIII, 1) p. 3-9.

Computer science, computers and education
Sendov, Blagovest. (XXVIII, 3) p. 269-274.

Computers and social options: comment
Salzmann, Charles. (XXVIII, 3) p. 209-218, illus.

The Effects of computerization on the relationship between public administration and the community
Gallouedec-Genuys, Françoise. (XXVIII, 3) p. 219-225.
